## YOU'RE IN THE BUSINESS OF TRANSFORMING LIVES. SO ARE WE.

That's why we launched the Isagenix® Fitness Professional Program.

We want to help you support your clients as they work towards their fitness goals. Here's the deal—you give your clients everything they need from a physical and mental standpoint... but what about from a nutritional standpoint?

### A Program for the PROs

As an expert in the health and wellness arena, you know eating the right kind of food is vital—after all, without the right fuel, you may become more prone to plateaus, fatigue and injuries. By incorporating Isagenix into your business, you can give your clients something else: The highest quality nutritional supplements, snacks and meal replacement shakes to balance, rejuvenate and nourish the body with the very best nutrients sourced from around the globe.

### Just Another Isagenix Difference.

You won't find a program like this anywhere else. We've worked with several fitness pros who've already incorporated Isagenix into their health clubs and studios to develop this program. Bottom line: It works.

Once enrolled in the Isagenix Fitness Program, you'll receive a USB stick loaded with flyers, banners, FIT PRO logos, member questionnaire, videos and audio recordings, so you'll have everything you need right at your fingertips.

### The Right Products

You know your clients better than anyone. That's why we're not offering a limited selection of product. You'll have complete access to our entire product line, so you can create and customize a nutritional regimen to meet the specific needs of your client.

### So What Are You Waiting For?

You're in the right business, now take it to another level with the Isagenix Fitness Professional Program TODAY!
